An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. D. Kimbell on 7/19/06. The application has been amended as follows:

In the abstract delete the first three lines "METHOD OF SELECTIVE....THEREOF" and delete the last line "FIGURE 1A".

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: in figure 2(b) "20" should be changed to "101". In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

The following is an examiner's statement of reasons for allowance: the closest prior art of record, Cohen et al., does not teach a dielectric layer over the metallic interlayer and top surface oxide layer. Northrup, of record, teaches nitride rather than oxide and the nitride does not function equivalent to the oxide of applicant's invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
